FOREVER

### Discover the Power...

The Aloe family of plants includes over 200 varieties. Of these, it is the Aloe Barbadensis Miller (Aloe Vera) that has been of most use to man. A succulent plant with thick fleshy leaves which conceal an inner gel, it has been used for centuries to maintain health and enhance beauty. Flourishing in warm, dry climates, both the Greeks and the Egyptians valued it highly.

We are the world's largest growers and producers of Aloe Vera and have a patented stabilisation process ensuring ours is essentially identical to the inner leaf gel. Freshness is therefore assured. Our Aloe is also free from herbicides, pesticides, pasteurisation, freeze drying and heat treatment.

Aloe Vera is versatile - our wide range includes drinks, skincare, personal care and cosmetics. The key to our success is that we don't simply add a few drops of Aloe Vera to our products, we start with 100% inner gel and add just enough other ingredients as needed. Poor diet, stress, caffeine, over-processed foods etc can all lead to less than tip-top health. Aloe, with its wealth of essential nutrients, can help redress the balance. Aloe works with 'the inner doctor', our immune system, replenishing the nutrients as required. Drink any one of our four options on a daily basis to assist digestion and absorption of nutrients, to add vitamins, minerals and amino acids to your diet, but above all, to promote a healthy lifestyle.
